

Olympus 2000 Handles

OLYMPUS HANDLE FOR 7/8" DIAMETER CABINET LOCKS 2000SP Series Handle with Lock (door/drawer for small pin cabinet locks)

Cabinet locks/pulls: All cabinets shall use **Olympus 2000SP Series** integrated handles. Non-locking cabinets will use **Olympus 2000SP Series** integrated dummy handles. Handles will incorporate lock within handle body and to utilize through-bolt mounting for added security. The door and drawer locks used with handle shall be easily rekeyable such as provided by Olympus Lock, Inc. Locks to have passed ANSI Grade 1 cycle testing.

Note: Place specific cabinet lock specification here. The 2000SP Series handles can be used with Olympus 100DR, 200DW, 500DR or 600DW locks.

OLYMPUS HANDLE FOR 1-1/8" DIAMETER CABINET LOCKS 2000LP Series Handle with Lock (door/drawer for large pin cabinet locks)

Cabinet locks/pulls: All cabinets shall use **Olympus 2000LP Series** integrated handles. Non-locking cabinets will use **Olympus 2000LP Series** integrated dummy handles. Handles will incorporate lock within handle body and to utilize through-bolt mounting for added security. The door and drawer locks used with handle shall be easily rekeyable such as provided by Olympus Lock, Inc. Locks to have passed ANSI Grade 1 cycle testing.

Note: Place specific cabinet lock specification here. The 2000LP Series handles can be used with Olympus 700S, 721, 754, 777, 800S, 854, 888 or 931 locks.
